Professional Summary

Full-Stack Developer with 4+ years of experience building scalable web applications using React, Node.js, and modern DevOps tools. Experienced in designing REST APIs, optimizing performance, and deploying cloud-based applications on AWS.

Technical Skills

- Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+)
- Backend:** Node.js, Express.js, Laravel, Socket.io
- Native Mobile:** React Native
- Databases:** MySQL, PostgreSQL, MongoDB, Redis
- DevOps & Cloud:** Docker, Nginx, GitHub Actions, PM2, AWS (EC2, S3, IAM)
- Tools:** Git, Redux Toolkit, Zustand, Vite, Webpack, Jest, Cypress, Postman, Swagger

Professional Experience

Full Stack Developer Sthaniya Saathi, Bhubaneswar
March 2025 – Present

- Developed a scalable ERP platform using **React, Next.js, TypeScript, Node.js, Express, and MySQL**, implementing role-based access control, REST APIs, and real-time features using **Socket.io**.
- Deployed containerized services using **Docker, Nginx, and AWS EC2**, with CI/CD pipelines via **GitHub Actions**; optimized database queries and caching with **Redis**, reducing deployment time by **60%**.

Full Stack Developer Maxlence Consulting, Gurgaon
February 2023 – March 2025

- Developed scalable MERN applications and REST APIs serving **5K+ monthly users** with Redis caching and modular architecture.
- Improved frontend performance by **40%** using code splitting, lazy loading, and Lighthouse optimizations.

Frontend Developer Nyasa Production Studio (Remote)
March 2022 – February 2023

- Built **90+** responsive UI pages from Figma designs using HTML, CSS, and JavaScript, improving cross-browser compatibility.
- Reduced page load time by **30%** through image optimization, lazy loading, and modular UI components.

Projects

Easy15 – E-Commerce Platform (Pick 'Barpeta Town' as your Location) [GitHub](#) • [Live](#)

- Developed a full-stack e-commerce platform with React and Node.js supporting product browsing and cart management.
- Improved load speed by **35%** through lazy loading and optimized API responses.

CodePen 2.0 – Online Code Editor [GitHub](#) • [Live](#)

- Built browser-based code editor supporting real-time HTML, CSS, and JavaScript preview.
- Implemented local storage persistence to prevent code loss and improve user experience.

MeDoc - Real-time Collaborative Writing Platform [GitHub](#) • [Live](#)

- Built a real-time collaborative supporting **100+ concurrent users with sub-100ms** synchronization latency.
- Designed WebSocket-based state synchronization with conflict-safe updates to ensure consistent shared writing state.

Education & Certification

Bachelor of Computer Applications (BCA) – Information Technology
Gauhati University 2019 – 2023
Grade: 78%

Full Stack Web Development
Newton School Nov 2022

Additional Activities

- Contribute to open-source UI libraries and backend utilities.
- Study scalable system design concepts including Kafka and RabbitMQ.
